UNIVERSITY OF IDAHO

MANAGEMENT'S DISCUSSION AND ANALYSIS AS OF AND FOR THE YEAR ENDED JUNE 30, 2005

The University of Idaho (the "University") is a doctoral-research extensive land-grant institution, with the principal responsibility for research and granting Ph.D. degrees in Idaho. The University serves state, national and international communities by providing academic instruction and conducting research that advances fundamental knowledge. In addition to its main campus in Moscow, the University has instructional centers in Coeur D'Alene, Boise, Twin Falls and Idaho Falls as well as research and extension centers located across the state.

OVERVIEW

The Management's Discussion and Analysis is designed to provide an easily readable analysis of the University's financial condition, results of operations and cash flows based on facts, decisions and conditions known at the date of the auditor's reports. The emphasis of this discussion of the financial performance of the University is for the current year.

The discussion and analysis that follows provides an overview of the University's financial activities for the fiscal year ended June 30, 2005. There are three financial statements presented: the Statement of Net Assets; the Statement of Revenues, Expenses and Changes in Net Assets; and the Statement of Cash Flows. They are prepared using the accrual basis of accounting, whereby revenues are recognized when services are provided and expenses are recognized when goods or services are received, regardless of when cash is exchanged.

In accordance with GASB Statement No. 39, *Determining Whether Certain Organizations are Component Units, an Amendment of GASB Statement 14*, these statements also present information for the University of Idaho Foundation, Inc. (the "Foundation") which qualifies as a component unit of the University. Separate audited financial statements are prepared for the Foundation and may be obtained by contacting University of Idaho Foundation, P.O. Box 443143, Moscow, ID 83844-3143.

Statement of Net Assets

The statement of net assets outlines the University's financial condition at fiscal year end. This is a point-in-time financial statement and presents end-of-year data concerning assets, liabilities and net assets.

From the data presented, readers are able to determine the assets available to continue the operations of the University. They are also able to determine how much the University owes vendors, investors and lending institutions. Finally, it provides a picture of the net assets (assets minus liabilities) and their availability for expenditure by the University.

The statement of net assets is presented in a classified format, which differentiates between current and noncurrent assets and liabilities, and also categorizes net assets into four categories:

- *Invested in Capital Assets, Net of Related Debt*—Net assets representing the University's investment in property, plant and equipment net of depreciation and outstanding debt obligations related to those capital assets.
- *Restricted Nonexpendable*—Net assets subject to donor stipulations requiring the net assets to be maintained permanently by the University. These assets are invested by the Foundation.

- *Restricted Expendable*—Net assets subject to donor stipulations regarding their use. The University may expend these assets for purposes as determined by donors and/or external entities.
- *Unrestricted*—Net assets not subject to donor stipulations which may be expended for any lawful purpose of the University.

Condensed Statements of Net Assets
As of June 30, 2005
(Thousands)

	2005	2004	2003
Assets:			
Current assets	\$ 39,966	\$ 56,518	\$ 48,191
Property, plant and equipment - net	306,409	311,705	297,204
Other noncurrent assets	138,583	107,756	123,940
Total assets	<u>484,958</u>	<u>475,979</u>	<u>469,335</u>
Liabilities:			
Current liabilities	45,116	47,307	44,743
Noncurrent liabilities	127,157	133,148	140,059
Total liabilities	<u>172,273</u>	<u>180,455</u>	<u>184,802</u>
Net assets:			
Invested in capital assets—net of debt	171,201	173,804	173,525
Restricted nonexpendable	78,667	71,171	70,747
Restricted expendable	21,252	20,631	21,610
Unrestricted	41,565	29,918	18,650
Total net assets	<u>\$ 312,685</u>	<u>\$ 295,524</u>	<u>\$ 284,532</u>

Current assets include the University's cash, accounts receivable, grants and loans receivable, inventories and prepaid expenses expected to benefit the University within one year. Accounts, grants and loans receivable result primarily from student accounts and from sponsored projects which are payable on a cost-reimbursement basis. Inventories include books and supplies from auxiliary operations and supplies for resale in other University departments.

Property, plant and equipment, net are values related to construction in progress, library materials, furniture and equipment, buildings and improvements. Equipment acquisitions relate largely to the University's research and instruction programs and include acquisitions of scientific equipment.

In order to accurately reflect the current assets, the University has recorded an allowance of \$7,071,957 against two notes receivable from the Foundation that are due December 31, 2005. These notes stem from the University Place project in Boise, ID. The Foundation's ability to pay the notes in accordance with the current terms is uncertain. The University intends to pursue the collection of the notes and believes it may be possible that the Foundation will eventually recover a portion of its losses through legal and other actions and will then be able to repay these notes. The University and the Foundation currently are in litigation regarding the University Place project and the University will continue to monitor the recovery efforts of the Foundation and the collectibility of these notes. For further information please refer to the litigation note to the financial statements.

Other noncurrent assets include endowment fund assets, student loans receivable and investments expected to mature over a period greater than one year.

Current liabilities include payroll and related liabilities, amounts payable to suppliers for goods and services received, cash received for which the University has not yet earned the related revenue, and debt principal payments due within one year.

Amounts invested in capital assets, net of related debt, consist of the historical acquisition value of capital assets, reduced by both accumulated depreciation expense charged against assets and debt balances related to capital assets.

Restricted, expendable net assets represent balances that may be expended by the University, but only in accordance with the restrictions imposed upon the University by an external party, such as a donor or legislative mandate. The University's most significant restricted, expendable balance relates to funds held by trustees in accordance with bond covenants, which may only be expended for the renewal and replacement of assets whose revenues are pledged as security for repayment of debt.

Restricted, nonexpendable balances must be held in perpetuity, and include endowment principal.

Unrestricted net assets may be designated for specific purposes by action of management or the Board of Regents, or may otherwise be limited by contractual agreements with outside parties. Substantially all unrestricted net assets are designated for specific purposes as described in the notes to the financial statements, and include funds accumulated for contractual payments such as debt service and grant-funded employee termination payouts, funds earmarked for facility renewal and replacement and student organization funds.

YEAR ENDED JUNE 30, 2005 COMPARED TO YEAR ENDED JUNE 30, 2004

Significant Changes in the Statement of Net Assets

- Cash and cash equivalents decreased \$3.8 million due to management decisions to invest a portion of the cash balances for a longer term during fiscal year 2005.
- Investments at market increased \$13.4 million due to conversions from cash to investments reflecting a management decision to capture additional return by investing for a longer duration.
- Notes receivable decreased by approximately \$2 million dollars due to a provision for doubtful accounts taken against a note with the Foundation.
- Repurchase agreements declined by \$.7 million. These funds were used to complete the 2001 University of Idaho Housing Project.
- Noncurrent accrued salaries and benefits payable decreased \$136 thousand. All the University's 2002 Voluntary Separation Retirement Opportunity Program ("VSROP") expenses have been paid except for a small amount that is due in the current year. The payment for the program during fiscal year 2004 was \$1.4 million.
- Notes and bonds payable decreased \$5.6 million due to annual debt service payments. During the year the University issued bonds in the amount of \$30.7 million. This was a refunding issue which retired debt related to five bonds issues.

Statement of Revenues, Expenses and Changes in Net Assets

The statement of revenues, expenses and changes in net assets presents the revenues received and expenses incurred during the year, classifying activities as either “operating” or “nonoperating.” This distinction results in operating deficits for those institutions that depend on State aid and gifts, because the GASB 34 reporting model classifies state appropriations and gifts as nonoperating revenue. The utilization of capital assets is reflected in the financial statements as depreciation expense, which allocates the cost of assets over their expected useful lives.

Condensed Statements of Revenues, Expenses and Changes in Net Assets Years Ended June 30 (Thousands)

	2005	2004	2003
Operating revenues	\$ 170,790	\$ 165,932	\$ 157,132
Operating expenses	<u>296,438</u>	<u>286,785</u>	<u>277,483</u>
Operating (loss) income	(125,648)	(120,853)	(120,351)
Net nonoperating revenues (expenses)	<u>138,450</u>	<u>125,844</u>	<u>119,772</u>
Income before other revenues and (expenses)	12,802	4,991	(579)
Other revenues and (expenses)	<u>4,359</u>	<u>6,001</u>	<u>4,974</u>
Increase in net assets	17,161	10,992	4,395
Net assets—beginning of year	<u>295,524</u>	<u>284,532</u>	<u>280,137</u>
Net assets—end of year	<u>\$ 312,685</u>	<u>\$ 295,524</u>	<u>\$ 284,532</u>

Operating Revenues

Operating revenues are generated through providing services to the various customers and constituencies of the University. Operating revenues include tuition and fees, grant and contract revenues, and sales and service revenue generated by student housing, bookstores and other enterprises. Student enrollment drives a large portion of operating revenues. Trends indicate that in the future a greater proportion of revenues will be obtained from students and other sources to offset a proportional decrease in available state funding.

Operating Expenses

As shown in the following chart, a significant portion of the University’s expenses relate to employee compensation and benefits. This relationship is expected to continue, and the proportion may grow as compensation, insurance and other payroll-related costs increase. Due to the volatility of the utilities industry, utilities and plant-related expenses may fluctuate. Additionally, a concerted effort is being made to ensure access to all qualified applicants through endowed scholarships, resulting in increases in financial aid.

Operating Expenses

As illustrated in the following graph, instruction and research activities together constitute nearly half the University's expenses. The cost of investing in the operation and maintenance of plant is the third largest expense category of the University. The costs of providing auxiliary services is the fourth largest cost category and includes Dining and Residence Hall operations, Commons & Student Union operations, Associated Students of University of Idaho, Kibbie Dome, Bookstore, Student Health Services and Athletics.

Expenses by Program (in millions)

Nonoperating Revenues

Similar to most public higher education institutions, the University receives significant nonoperating revenues, including state appropriations, which offset the losses generated by operating activities. The operating loss for the year ended June 30, 2005 of \$125.6 million was offset by \$138.5 million in net nonoperating revenues, principally composed of \$114.3 million of state appropriations, \$6.7 million of land grant endowment income, \$11.1 million of gifts, and \$2.2 million of net investment income. Net nonoperating revenues were offset by \$5.7 million in interest expense and \$2.0 million in provision for doubtful accounts.

Other Revenues and Expenses

Other revenues include contributions to the University for capital assets from the Foundation and the state's permanent building fund.

The following graph illustrates operating revenues, nonoperating revenues and other revenues by source for fiscal year 2005:

Significant Changes in the Statement of Revenues, Expenses and Changes in Net Assets

Operating revenues increased by \$4.4 million primarily due to the following:

- Student tuition and fee revenue increased \$3.4 million due mainly to an overall increase of 8.5% to the fee structure.
- Revenue from auxiliary sales increased by \$2.4 million due to the new Living and Learning Center dormitory coming on-line and an increase in summer conference activity.

Operating expenses increased \$9.2 million primarily due to the following:

- Depreciation expense increased \$5.0 million due mainly to a change in estimated useful lives used in the calculation. Equipment estimated useful lives changed from an average of 10 years to 7 years to more closely align with the useful lives used by the State of Idaho.
- Salaries and benefits expense increased \$4 million. During previous fiscal years, the VSROP program created vacancies throughout the University. During fiscal year 2005, some of those positions were filled as well as some key leadership positions. A mid-year salary increase of 2% on average was instituted. In addition, employee and retiree health insurance benefit costs increased by approximately 10 percent.
- During the fiscal year ended June 30, 2005, UI revised its estimate of useful lives of equipment. The revisions were made to more accurately measure the useful lives of each asset type. Previously, all equipment had a useful life of 10 years. Equipment useful lives now range from 5 to 30 years with an average of 7 years. The change had the effect of increasing equipment depreciation expense and decreasing the net assets by approximately \$5.5 million.
- Insurance, Utilities, and Rent increased \$1.7 million in part due to the rent related to the occupation of the Water Center Building and an increase in utilities.
- Scholarship and fellowship expenses decreased \$1.1 million.

Nonoperating revenues increased \$16.6 million primarily due to the following:

- State appropriated funds increased \$4.5 million, a 4% increase. This increase is for all six appropriations received by the University and includes adjustments for inflation, enrollment increases as well as contractual adjustments for WWAMI and WOI medical and veterinary education programs.
- Land Grant Endowment revenue decreased by \$1.2 million
- Gift revenue increased \$4.1 million.
- The value of the Endowment assets held in trust by the Foundation increased by \$7.1 million.
- An increase in the provision for doubtful accounts decreased nonoperating revenues by \$2 million.

Other revenues decreased by \$1.6 million primarily due to an decrease in capital gifts from the Foundation of \$.6 million and a decrease in capital appropriations of \$1.3 million due to the completion of the Teaching and Learning Center project.

Statement of Cash Flows

The statement of cash flows presents detailed information about the cash activities of the University during the year ended June 30, 2005. The statement is divided into five parts. The first part deals with operating cash flows and shows the net cash used by the operating activities of the University. The second section reflects cash flows from noncapital financing activities. This section reflects the cash received and spent for nonoperating, noninvesting and noncapital financing purposes. The third section, cash flows from capital and related financing activities, deals with the cash used for the acquisition and construction of capital and related items. The fourth section reflects the cash flows from investing activities and shows the purchases, proceeds and interest received. The fifth section reflects the net change in cash position.

ECONOMIC OUTLOOK

In fiscal year 2005, the University implemented \$4.75 million of permanent base budget reductions and reallocations to re-balance the university's overall fiscal year 2006 fiscal year budget. The actions taken were initiated by the University's President and based in part upon deliberations of the Vision and Resources Task Force convened by the President. In addition to balancing the budget, nearly all colleges and operating units have increased their reserves as a safeguard against the uncertainties of additional program or enrollment changes.

The newly opened Teaching and Learning Center houses over half of the Moscow campus classrooms and has invigorated the central core of campus. This high tech classroom facility is structurally joined with the University Commons building and provides first rate classroom experiences in support of the University's academic mission.

University leadership continues to emphasize accountability and stewardship of University human and financial resources, with a primary focus on maintaining relevance and excellence in programs offered. University leadership is in the process of filling several key management positions and will continue to strive for the proper balance between revenue increases and spending reductions to ensure that quality programs remain viable, while access to the University is not unduly limited by the cost of attendance.

The University plans to grow and diversify its revenue bases through increases in externally funded grants and contracts, strong philanthropic support, increased student support and other initiatives. In order to deal with unforeseen events, the University plans to maintain modest financial reserves.

The State of Idaho ended fiscal year 2005 with an approximate \$211 million surplus and general fund revenues continue to flow in ahead of expectations. Growth in the State's economy may provide the governor and legislature with additional resources to address the many compelling needs of higher education in Idaho.

INDEPENDENT AUDITOR'S REPORT

Idaho State Board of Education
University of Idaho
Moscow, Idaho

We have audited the accompanying statement of net assets of University of Idaho (University) as of and for the year ended June 30, 2005, and the related statements of revenues, expenses and changes in net assets and cash flows for the year then ended. These financial statements are the responsibility of University of Idaho's management. Our responsibility is to express an opinion on these financial statements based on our audit. We did not audit the financial statements of University of Idaho's discretely presented component unit as described in Note 17. Those financial statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for that component unit, is based solely on the report of other auditors. The financial statements of the University of Idaho as of June 30, 2004, were audited by other auditors whose report dated November 12, 2004 expressed an unqualified opinion on those statements based on their audit and the report of other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the financial position of University of Idaho and its discretely presented component unit, as of June 30, 2005, and the changes in financial position and cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 1, the University adopted the provisions of Governmental Accounting Standards Board Statement No. 40, *Deposit and Investment Risk Disclosures* for the year ended June 30, 2005.

In accordance with *Government Auditing Standards*, we have also issued our report dated September 30, 2005 on our consideration of University of Idaho's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis listed in the table of contents is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However we did not audit the information and express no opinion on it.

UNIVERSITY OF IDAHO

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2005 AND 2004

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The University of Idaho (the "University") is a publicly-supported comprehensive land grant institution created in 1889 by a statute of the 15th territorial legislature and is part of the public system of higher education in the State of Idaho. The system is considered part of the State of Idaho financial reporting entity. The Board of Regents, appointed by the Governor and confirmed by the State Senate, directs the University. The significant accounting policies followed by the University are described below to enhance the usefulness of the financial statements to the reader.

Financial Statement Presentation—In May 2002, the Governmental Accounting Standards Board ("GASB") issued Statement No. 39, *Determining Whether Certain Organizations Are Component Units, an amendment of GASB Statement No. 14*, which requires reporting, as a component unit, an organization that raises and holds economic resources for the direct benefit of a governmental unit. The State of Idaho and the Idaho public colleges and universities implemented this Statement for the fiscal year ended June 30, 2004. The University of Idaho Foundation, Inc. (the "Foundation") is considered a component unit of the University and is discretely presented in the University's financial statements.

In March 2003, the GASB issued Statement No. 40, *Deposit and Investment Risk Disclosures*. Statement No. 40 amends GASB Statement No. 3, *Deposits with Financial Institutions, Investments (including Repurchase Agreements), and Reverse Repurchase Agreements*. The objective of this Statement is to update the custodial credit risk disclosure requirements of GASB Statement No. 3 and to establish more comprehensive disclosure requirements addressing other common risks of the deposits and investments of state and local governments. The State of Idaho and the Idaho public colleges and universities implemented this Statement for the fiscal year ended June 30, 2005.

Basis of Accounting— For financial statement purposes, the University is considered a special-purpose government engaged only in business-type activities. Accordingly, the University's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred. All significant intra-agency transactions have been eliminated. The University is presenting its financial statements in accordance with GASB Statement 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, and GASB Statement 35, *Basic Financial Statements - and Management's Discussion and Analysis - for Public Colleges and Universities*.

The University has the option to apply all Financial Accounting Standards Board ("FASB") pronouncements issued after November 30, 1989, unless those standards conflict or contradict with GASB pronouncements. The University has elected to not apply FASB pronouncements issued after the applicable date.

Component Unit— The Foundation was established in 1970 to solicit financial support for the University of Idaho and to manage and invest the resulting charitable gifts. The Foundation is a separate corporation made up of over 150 volunteers who are governed by a 25 member Board of Directors elected annually by the Foundation members.

The Foundation receives all gifts to the University and transfers gifts to the donor specified area within the University on a regular schedule. In addition, the Foundation manages endowment funds in a pooled investment fund, the Consolidated Investment Trust ("C.I.T."). Earnings from the endowment are transferred annually to the University. Some funds invested in the C.I.T. are held in trust for the University and are shown as both an asset and liability on the Foundation financial statements.

The Foundation also manages a number of split-interest agreements. These are contributions in the form of irrevocable charitable remainder trusts and charitable gift annuities. These gifts have been received from donors subject to obligations to pay stipulated amounts periodically to the donors or designated beneficiaries during their lifetimes or a period of years. These assets for which the Foundation serves as trustee are included in investments, and the present value of the estimated future payments to be made to the donors or other beneficiaries are included in the liabilities. The liabilities are adjusted during the term of the trusts for changes in the value of the assets, amortization of the discount, or the estimated life of the trust.

During the years ended June 30, 2005 and June 30, 2004, the Foundation distributed \$7,237,209 and \$9,937,996, respectively, to the University from gifts and other revenues and \$5,801,703 and \$5,016,553, respectively, from C.I.T. endowment income.

Cash and Cash Equivalents—The University considers all highly liquid investments with a remaining maturity of three months or less at the date of acquisition to be cash equivalents.

Student Loans Receivable—Loans receivable from students bear interest at rates ranging from 3% to 7% and are generally repayable in installments to the University over a 5- to 10-year period commencing 6 or 9 months from the date of separation from the University. Collections on these student loans are primarily handled through a third party servicer.

Accounts Receivable—Accounts receivable consists of tuition and fee charges to students and auxiliary enterprise services provided to students, faculty and staff. Accounts receivable also include amounts due from the federal government, state and local governments, or private sources, in connection with reimbursement of allowable expenditures made pursuant to the University's grants and contracts. Accounts receivable are recorded net of estimated uncollectible amounts.

Inventories—Inventories are valued at the lower of cost or market using the first in, first out method.

Investments—The University accounts for its investments at fair value in accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*. Changes in unrealized gain (loss) on the carrying value of investments are reported as a component of the net increase in fair value of investments in the statement of revenues, expenses and changes in net assets.

Restricted Cash and Cash Equivalents and Investments—Cash and cash equivalents that are restricted to make debt service payments, maintain sinking or reserve funds, (except for currently due payments), are classified as noncurrent assets in the statement of net assets.

Property, Plant and Equipment—Property, plant and equipment are stated at cost when purchased or constructed, or if acquired by gift, at the estimated fair value at the date of gift. For equipment, the University's capitalization policy includes all items with a unit cost of \$5,000 or more and an estimated useful life of greater than one year. Renovations to buildings and land improvements that significantly increase the value or extend the useful life of the structure are capitalized. Routine repairs and maintenance are charged to operating expense in the period in which the expense was incurred.

Depreciation is computed using the straight-line, composite method over the estimated useful lives of the assets, generally 40 years for buildings, 20 years for improvements other than buildings, 10 years for library materials and an average of 7 years for equipment.

Compensated Absences—Included in the accrued salaries and benefits payable at June 30, 2005 and 2004 is \$6,885,574, and \$7,801,014, respectively, related to compensated absences earned but unused. This amount is also included as a component of benefits expense in the statement of revenues, expenses, and changes in net assets.

Deferred Revenue—Deferred revenue includes amounts received for tuition and fees and certain auxiliary activities prior to the end of the fiscal year but related to the subsequent accounting period. Deferred revenue also includes amounts received from grant and contract sponsors that have not yet been earned.

Noncurrent Liabilities—Noncurrent liabilities primarily include (1) principal amounts of revenue bonds payable, notes payable, and capital lease obligations with contractual maturities greater than one year; and (2) estimated amounts for other liabilities that will not be paid within the next fiscal year.

Net Assets— The University's net assets are classified as follows:

Invested In Capital Assets—Net of Related Debt—This represents the University's investment in capital assets, net of depreciation and outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of invested in capital assets, net of related debt.

Restricted—Nonexpendable—Nonexpendable restricted net assets consist of endowment and similar type funds in which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may either be expended or added to principal.

Restricted—Expendable—Restricted expendable net assets include resources for which the University is legally or contractually obligated to spend resources in accordance with restrictions imposed by external third parties.

Unrestricted—Unrestricted net assets represent resources derived from student tuition and fees, state appropriations, investment income, and sales and services of educational departments and auxiliary enterprises. These resources are used for transactions relating to the educational and general operations of the University, and may be used at the discretion of the governing board for any lawful purpose. These resources also include auxiliary enterprises, which are substantially self-supporting activities that provide services for students, faculty and staff.

When an expense is incurred that can be paid using either restricted or unrestricted resources, the University's policy is to first apply the expense towards restricted resources, and then toward unrestricted resources.

Income Taxes— The University is excluded from federal income taxes under Section 115(1) of the Internal Revenue Code, per letter dated November 7, 1945. The University is also considered a Section 501(c)(3) corporation via letter from the Internal Revenue Service dated August 29, 1961. The university is subject to unrelated business income tax.

Classification of Revenues— The University has classified its revenues as either operating or nonoperating according to the following criteria:

Operating Revenues—Operating revenues include activities that have the characteristics of exchange transactions, such as (1) student tuition and fees, net of scholarship discounts and allowances, (2) sales and services of auxiliary enterprises, (3) most federal, state and local grants and contracts and federal appropriations, and (4) interest on institutional student loans.

Nonoperating Revenues - Nonoperating revenues include activities that have the characteristics of nonexchange transactions, such as gifts and contributions, and other revenue sources that are defined as nonoperating revenues by GASB Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting*, and GASB Statement No. 34, such as state appropriations and investment income.

Scholarship Discounts and Allowances— Student tuition and fee revenues, and certain other revenues from students, are reported net of scholarship discounts and allowances in the Statement of Revenues, Expenses, and Changes in Net Assets. Scholarship discounts and allowances are the difference between the stated charge for goods and services provided by the University, and the amount that is paid by students and/or third parties making payments on the students' behalf. Certain governmental grants, such as Pell grants, and other federal, state or nongovernmental programs, are recorded as either operating or nonoperating revenues in the University's financial statements. To the extent that revenues from such programs are used to satisfy tuition and fees and other student charges, the University has recorded a scholarship discount and allowance. The scholarship discount for 2005 and 2004 was \$12,412,945 and \$12,091,008, respectively.

Use of Estimates—The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, net assets and disclosures regarding contingent assets and liabilities. Actual results could differ from those estimates.

Reclassifications—Certain reclassifications have been made in the 2004 financial statements to conform to the 2005 presentation.

New Accounting Standards— In November 2003, the GASB issued Statement No. 42, *Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries*. This statement establishes accounting and financial reporting standards for impairment of capital assets and requirements for application of related insurance recoveries. The University has not completed the process of evaluating the impact that will result from adopting this Statement. The requirements of this Statement for the University are effective for the fiscal year ending June 30, 2006.

In June 2004, the GASB issued Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. This Statement generally requires that the University account for and report the cost and obligations related to postemployment healthcare and other nonpension benefits ("OPEB") and include disclosures regarding its OPEB plans. OPEB costs are likely to be based on actuarially determined amounts that, if funded on an ongoing basis, generally would provide sufficient resources to pay benefits as they come due. The provisions of Statement No. 45 may be applied prospectively and do not require the University to fund its OPEB plans. The University may establish its OPEB liability at zero as of the beginning of the initial year of implementation; however, the unfunded liability is required to be amortized over future periods. The requirements of this Statement for the University are effective for the fiscal year ending June 30, 2008. The University has not completed the process of evaluating the impact that will result from adopting this Statement and is therefore unable to disclose the impact that adopting the Statement will have on its financial statements.

2. CASH AND CASH EQUIVALENTS

The University accounts for its cash on a pooled basis whereby each fund has a positive or negative equity in cash depending upon the net effect of its cash receipts and disbursements activity.

Cash and cash equivalents are deposited with various financial institutions. Custodial credit risk on deposits is the risk that in the event of a bank failure, the University's deposits may not be returned to it. At June 30, 2005, \$4,723,875 of the University's bank balance of \$12,174,801 was exposed to custodial credit risk because it was uninsured and uncollateralized. At June 30, 2004, \$13,580,213 of the University's bank balance of \$15,977,211 was exposed to custodial credit risk because it was uninsured and uncollateralized.

3. INVESTMENTS AND REPURCHASE AGREEMENTS

The general investment policy of the University as adopted by its Board of Regents is that investments in securities are to be made with the objectives of maximizing long-term total return, ensuring safety of principal and providing satisfactory current income. Investment of cash shall be restricted to:

- FDIC passbook savings accounts.
- Certificates of deposit.
- U.S. securities.
- Federal funds repurchase agreements.
- Reverse repurchase agreements.
- Federal agency securities.
- Large money market funds.
- Bankers acceptances.
- Corporate bonds of Aa grade or better.
- Mortgage backed securities of Aa grade or better.
- Commercial paper of prime or equivalent grade.

Repurchase agreements are collateralized by U.S. Government securities held by the pledging financial institution or financial institution's agent in the University's name.

In accordance with established investment policy, the University may invest in various mortgage-backed securities, such as collateralized mortgage obligations. These securities are recorded at fair value in the statement of net assets. Investment income, including change in fair value of investments, is recognized as revenue in the statement of revenues, expenses and changes in net assets.

Custodial Credit Risk

The University's investments described above are categorized below to give an indication of the level of risk assumed by the University at June 30, 2005. Category 1 includes investments that are insured or registered, or for which the securities are held by the University or its agent in the University's name. Category 2 includes uninsured and unregistered investments for which the securities are held by the counterparty's trust department or agent in the University's name. Category 3 includes uninsured and unregistered investments for which the securities are held by the counterparty whether or not in the University's name; or by the counterparty's trust department or agent but not in the University's name.

2005				
	Investment Risk Category			Total Carrying Amount
	1	2	3	
INVESTMENTS:				
Corporate debt securities and preferred stock	\$ 32,787,675	\$ -	\$ -	\$ 32,787,675

	-	-	-	-
Common stocks	1,250,000	-	-	1,250,000
Mutual funds	1,372,730	-	-	1,372,730
	<u>\$ 31,794,130</u>	<u>\$ 1,144,097</u>	<u>\$ -</u>	<u>\$ 32,938,227</u>
REPURCHASE AGREEMENTS HELD IN TRUST		<u>\$ 712,767</u>		<u>\$ 712,767</u>

Interest Rate Risk

Interest rate risk is defined by GASB Statement No. 40 as the risk a government may face should interest rate fluctuations affect the fair value of investments. The University does not presently have a formal policy that addresses interest rate risk. As of June 30, 2005, the University had the following investments subject to interest rate risk:

Debt Security Investments at June 30, 2005

Investment Maturities In Years

Investment Type:	Fair Value	<1	1-5	6-10	>10	Total
US Corporations	\$ 3,062,676	\$ -	\$ -	\$ 692,750	\$ 2,369,926	\$ 3,062,676
US Government Agencies	<u>12,703,697</u>	<u>1,137,898</u>	<u>54,544</u>	<u>1,357,346</u>	<u>10,153,909</u>	<u>12,703,697</u>
Total	<u>\$ 15,766,373</u>	<u>\$ 1,137,898</u>	<u>\$ 54,544</u>	<u>\$ 2,050,096</u>	<u>\$ 12,523,835</u>	<u>\$ 15,766,373</u>

Credit Risk

Credit risk exists when there is a possibility the issuer or other counterparty to an investment may be unable to fulfill its obligations. GASB 40 requires disclosure of credit quality ratings for investments in debt securities. (The credit risk ratings listed below are issued upon standards set by Standard and Poor's.) As of June 30, 2005, the University had the following investment credit risk:

	U.S. Corporations	United States Agencies	Total
AAA	\$ 32,094,925	\$ 12,703,697	\$ 44,798,622
A	692,750		692,750
	<u>\$ 32,787,675</u>	<u>\$ 12,703,697</u>	<u>\$ 45,491,372</u>

Concentration of Credit Risk

Per GASB Statement No. 40, Concentration of Credit Risk is defined as the risk of loss attributed to the magnitude of a government's investment in a single issuer. The Governmental Accounting Standards Board has adopted a principle that governments should provide note disclosure when 5 percent of investments are concentrated in any one issuer. The University does not presently have a formal policy that addresses concentration of credit risk.

Issuer	Fair Value	% of Total Investments
Cohen & Steers REIT Auction Preferred	\$ 4,000,000	8.79%
Cohen & Steers RPF Float Auction Preferred	4,100,000	9.01%
PIMCO Corp Oppty Auction Preferred	5,900,000	12.97%
Various (no single issuer exceeds 5% of total)	32,324,176	69.23%
Total	<u>\$ 46,324,176</u>	<u>100.00%</u>

4. RECEIVABLES AND UNBILLED CHARGES

Receivables and unbilled charges consisted of the following at June 30, 2005 and June 30, 2004, respectively:

	June 30, 2005		June 30, 2004	
	Current	Noncurrent	Current	Noncurrent
Student tuition and fees	\$ 2,185,839	\$ -	\$ 2,266,049	\$ -

Net accounts receivable and unbilled charges	\$ 24,247,777	\$ 14,916	\$ 24,110,783	\$ 2,030,198

The University holds an unsecured note receivable in the amount of \$5,041,759 from the Foundation, a related party, dated October 14, 2003, due December 31, 2005. This note stems from the University Place project in Boise, ID. Variable rate interest is due at maturity at the Wells Fargo daily sweep rate plus 2% (3.98% as of June 30, 2005 and 2.10% as of June 30, 2004). An allowance for the full amount was recorded as of June 30, 2005 and June 30, 2004. There is not sufficient evidence to support the Foundation being able to pay the note when due. The University believes it may be possible to collect on this note once the Foundation proceeds through legal and other potential recoveries. The University is monitoring the Foundation's legal recovery efforts and intends to vigorously pursue collection of this note.

The University also holds an unsecured note receivable in the amount of \$2,030,198 from the Foundation, a related party, dated October 14, 2003, due December 31, 2005. This note stems from the University Place project in Boise, ID. Fixed rate interest due at maturity is 1.00%. An allowance for the full amount was recorded as of June 30, 2005, and no allowance was recorded as of June 30, 2004. There is not sufficient evidence to support the Foundation being able to pay the note when due. The University believes it may be possible to collect on this note once the Foundation proceeds through legal and other potential recoveries. The University is monitoring the Foundation's legal recovery efforts and intends to vigorously pursue collection of this note.

5. STUDENT LOANS RECEIVABLE

Student loans made through the Federal Perkins Loan Program (the "Program") comprise substantially all of the loans receivable at June 30, 2005 and June 30, 2004. Under this Program, the federal government provides approximately 75% of the funding for the Program with the University providing the balance. The Program provides for cancellation of a loan at rates of 10% to 30% per year up to a maximum of 100% if the participant complies with certain provisions. The federal government reimburses the University for amounts cancelled under these provisions. In the event the University should withdraw from the Program or the federal government were to cancel the program, the amount the University would be liable for is approximately \$10,092,715 at June 30, 2005 and \$10,023,893 at June 30, 2004.

As the University determines that loans are uncollectible and not eligible for reimbursement by the federal government, the loans are written off and assigned to the U.S. Department of Education. The University has provided an allowance for uncollectible loans, which, in management's opinion, is sufficient to absorb loans that will ultimately be written off. The allowance for uncollectible loans was \$1,126,177 at June 30, 2005 and \$1,114,323 at June 30, 2004.

6. PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment at June 30, 2005 and 2004 consisted of the following:

11. NOTES AND BONDS PAYABLE

Notes and bonds payable consisted of the following at June 30, 2005:

Description	Original Balance	Balance Outstanding 2005
Student Fee Refunding Bonds, Series 1996, consisting of serial bonds due in annual installments increasing periodically from \$530,000 to a maximum of \$860,000, plus interest from 5.05% to 5.80% through the year 2013, collateralized by a pledge of net revenues and certain student fees of the University.	\$9,285,000	\$5,510,000
Student Fee Revenue Bonds, Series 1996, originally consisting of serial bonds due in annual installments ranging from \$435,000 to a maximum of \$605,000, plus interest from 5.75% to 5.85% through the year 2011, collateralized initially by a pledge of the University's Student Matriculation Fee and other pledged net revenues. The 2005A General Revenue Refunding Bonds extended the general pledge to these Bonds. A portion of these bonds are considered extinguished through defeasance by the 2005A General Revenue Refunding Bonds. The defeased amount is \$2,700,000 and the University has only one remaining annual installment of \$455,000, plus interest of 5.75%.	7,965,000	455,000
Student Fee Refunding Revenue Bonds, Series 1997B, consisting of serial bonds due in annual installments commencing in 2003 and increasing periodically from \$690,000 to a maximum of \$1,220,000, plus interest from 5.00% to 5.70% through the year 2016, collateralized initially by a pledge of the University's Student Matriculation Fee and other pledged net revenues. The 2005A General Revenue Refunding Bonds extended the general pledge to these Bonds.	12,380,000	10,395,000
Student Fee Revenue Bonds (University Commons Project) Series 1997, originally consisting of serial bonds due in annual installments commencing in 1999 and increasing periodically from \$130,000 to a maximum of \$1,650,000, plus interest from 4.85% to 5.7% through the year 2022, collateralized by a pledge of certain student fees, and certain other pledged revenue. A portion of these bonds are considered extinguished through defeasance by the 2005A General Revenue Refunding Bonds. The defeased amount is \$12,965,000 and the University's remaining annual installments range from \$140,000 to a maximum of \$145,000, plus interest from 4.95% to 5.50%.	14,100,000	285,000

Description	Original Balance	Balance Outstanding 2005
Student Fee Revenue Bonds (University Commons Supplemental Project) Series 1997, originally consisting of serial bonds due in annual installments commencing in 2000 and increasing periodically from \$175,000 to a maximum of \$405,000, plus interest from 4.60% to 5.35% through the year 2022, collateralized by a pledge of certain student fees, and certain other pledged revenue. A portion of these bonds are considered extinguished through defeasance by the 2005A General Revenue Refunding Bonds. The defeased amount is \$4,120,000 and the University's remaining annual installments range from \$180,000 to a maximum of \$200,000, plus interest from 4.65% to 5.00%.	\$5,620,000	\$570,000
Student Fee Revenue Bonds (Recreation Center Project), Series 1999, consisting of serial bonds due in annual installments commencing in 2002 and increasing periodically from \$470,000 to a maximum of \$1,425,000, plus interest from 3.85% to 6.50% through the year 2025, collateralized by a pledge of certain student fees, and certain other pledged revenue	20,115,000	18,515,000
Student Fee Revenue Bonds, Series 1999A, consisting of serial bonds due in annual installments commencing in 2003 and increasing periodically from \$40,000 to a maximum of \$105,000, plus interest from 4.00% to 5.25% through the year 2025, collateralized initially by a pledge of the University's Student Matriculation Fee and other pledged net revenues. 2005A General Revenue Refunding Bonds extended the general pledge to these Bonds.	1,470,000	1,355,000
Student Fee Revenue Bonds, Series 1999B, consisting of serial bonds due in annual installments commencing in 2003 and increasing periodically from \$155,000 to a maximum of \$445,000, plus interest from 4.95% to 5.625% through the year 2025, collateralized initially by a pledge of net revenues of the University's Student Matriculation Fee and other pledged net revenues. 2005A General Revenue Refunding Bonds extended the general pledge to these Bonds.	6,150,000	5,680,000
Student Fee Revenue Bonds, Series 1999C, originally consisting of serial bonds due in annual installments commencing in 2001 and increasing periodically from \$245,000 to a maximum of \$515,000, plus interest from 4.65% to 5.70% through the year 2019, collateralized initially by a pledge of University's Student Matriculation Fee and other pledged revenues. 2005A General Revenue Refunding Bonds extended the general pledge to these Bonds. A portion of these bonds are considered extinguished through defeasance by the 2005A General Revenue Refunding Bonds. The defeased amount is \$4,065,000 and the University's remaining annual installments range from \$260,000 to a maximum of \$295,000, plus interest from 4.75% to 5.625%.	6,305,000	1,110,000

Description	Original Balance	Balance Outstanding 2005
Student Fee Revenue Bonds, Series 1999D, originally consisting of serial bonds due in annual installments commencing in 2023 and increasing periodically from \$1,385,000 to a maximum of \$1,630,000, plus interest from 5.85% to 6.00% through the year 2026, collateralized by a pledge of net revenues of certain student fees, and certain other pledged revenues. These bonds are considered extinguished through defeasance by the 2005A General Revenue Refunding Bonds. The defeased amount is \$6,020,000 and the University has no remaining annual installments.	6,020,000	0
Student Fee Revenue Bonds, Series 2001, consisting of serial bonds due in annual installments commencing in 2005 and increasing periodically from \$250,000 to a maximum of \$2,125,000, plus interest from 3.50% to 5.40% through the year 2041, collateralized initially by a pledge of net revenues of the University's Student Matriculation Fee. 2005A General Revenue Refunding Bonds extended the general pledge to these Bonds.	40,930,000	40,680,000
Student Fee Refunding and Revenue Bonds, Series 2003, consisting of serial bonds due in annual installments commencing in 2003 and increasing periodically from \$20,000 to a maximum of \$1,525,000, plus interest from 4.00% to 5.25% through the year 2014, collateralized initially by a pledge of University's Student Matriculation Fee. 2005A General Revenue Refunding Bonds extended the general pledge to these Bonds.	17,585,000	15,485,000
General Revenue Refunding Bonds, Series 2005A, consisting of bonds due in annual installments commencing in 2005 and fluctuating periodically from a minimum of \$15,000 to a maximum of \$2,265,000, plus interest from 3% to 5% through the year 2026, collateralized by a pledge of all revenues of the University with the exception of general account appropriated funds of the State of Idaho and restricted gift and grant revenues. Revenues pledged to the Recreation Center Bonds and to the Activity Center Bonds are pledged to the 2005A bonds on a subordinate basis until the retirement of the Recreation Center Bonds and Activity Center Bonds.	30,740,000	30,725,000
Other indebtedness, consisting of notes payable with interest rates ranging from 3.8% to 5% due through the year 2019	2,790,768	1,313,642
Total	180,952,086	132,078,642
Premium on Bonds		3,048,337
Deferred amount on Refunding – 2005A		(3,234,534)
TOTAL	\$180,952,086	\$131,892,445

There are a number of limitations and restrictions contained in the various bond indentures.

Principal and interest maturities on notes and bonds payable notes and bonds payable, excluding amortization of bond premium and principal and interest on bonds subject to an insubstance debt defeasance are as follows for the years ending June 30:

	Interest	Principal
2006	\$ 6,653,644	\$ 4,955,984
2007	6,417,119	5,100,292
2008	6,167,124	6,113,066
2009	5,904,091	5,453,257
2010	5,650,431	5,708,599
2011 – 2015	23,930,180	28,129,650
2016 – 2020	16,510,156	26,056,370
2021 – 2025	10,270,305	24,520,320
2026 – 2030	5,886,773	7,594,673
2031 – 2035	4,203,360	7,014,063
2036 – 2040	2,100,060	9,119,063
2041 – 2045	114,750	2,127,108
	<u>\$ 93,807,993</u>	<u>\$131,892,445</u>

Bond Refunding - On February 10, 2005 the University issued General Revenue Bonds of \$30,740,000 (par value) with interest rates of 3.00% to 5.00% to advance refund the following bonds:

	Refunded Principal	Redemption Premium	Interest Rates	Maturity Dates	Call Dates
1996 TIP	\$ 2,700,000	\$ 27,000	5.580%	April 1, 2011	April 1, 2006
1997 Commons Project	12,965,000	129,650	5.500 - 5.700%	April 1, 2013-17 & 2022	April 1, 2007
1997 Commons Supp.	4,120,000	41,200	4.900 - 5.350%	April 1, 2009-12 & 2017 & 2022	April 1, 2008
1999C	4,065,000	40,650	5.625 - 5.700%	April 1, 2014 & 2019	April 1, 2009
1999D	6,020,000	60,200	5.850 - 6.000%	April 1, 2024 & 2026	April 1, 2009
Total	<u>\$29,870,000</u>	<u>\$298,700</u>			

The 2005A General Revenue Bonds were issued with a net premium of \$1,883,640 and, after paying issuance costs of \$447,502 and establishing a debt service reserve account of \$699,661, the net proceeds were \$31,476,477. The net proceeds along with additional funds of \$1,208,164 were used to purchase U.S. government securities and those securities were deposited in an escrow account to provide debt service payments until the final refunded bonds are called on April 1, 2009. The advance refunding met the requirements of an in-substance debt defeasance and the refunded bonds were removed from the University's financial statements.

As a result of the advance refunding the University reduced its total debt service requirements by \$2,490,635 which resulted in an economic gain (difference between the present value of the debt service payments on the old and new debt) of \$1,737,018.

Pledged Revenues – As stated in the bond descriptions above, the University has pledged certain revenues as collateral for debt instruments. The pledged revenue amounts for the year ended June 30, 2005 are as follows:

	Matriculation Fee and General Revenue System Series 1996 TIP, 1997B, 1999A, 1999B, 1999C, 2001, 2003 & 2005A	Activity Center Fee System Series 1996, 1997 Commons, Commons Supplemental, & Series 1999D	Student Recreation Center System Student Recreation Center Series 1999	Total
Pledged Revenues				
Student matriculation fee	\$ 25,551,608	\$	\$ 38,385	\$ 25,589,993
Residence hall system	7,158,419			7,158,419
Apartment housing system	1,854,317			1,854,317
Food service (meal plan)	3,317,706			3,317,706
Food service (institutional food service system)		645,026		645,026
Bookstore		7,628,121		7,628,121
Parking system	1,190,807			1,190,807
Telecommunication system ecommunicaitons system	3,262,837			3,262,837
Other student fees and tuition	1,110,617	2,742,735	1,667,855	5,521,207
Investment income	61,254	20,337	334	81,925
Total pledged revenues	<u>\$ 43,507,565</u>	<u>\$ 11,036,219</u>	<u>\$ 1,706,574</u>	<u>\$ 56,250,358</u>

12. CAPITAL LEASES

The University has entered into various capital lease agreements covering certain computer and telecommunication assets and maintenance. At June 30, 2005 and 2004, assets under capital leases totaled \$1,083,056 and \$1,098,305, respectively, and are included in property, plant and equipment. Future minimum lease obligations under these agreements for the year ending June 30, 2005 are as follows:

2006	\$ 75,084
2007	43,003
2008	<u>34,309</u>
Total minimum obligations	\$ 152,396
Less amount representing interest	<u>(8,224)</u>
Present value of minimum obligations	<u>\$ 144,172</u>

13. RETIREMENT PLANS

Public Employee Retirement System of Idaho—The Public Employee Retirement System of Idaho (“PERSI”), a cost-sharing multiple-employer public retirement system, was created by the Idaho State Legislature. PERSI provides benefits based on members’ years of service, age, and compensation. In addition, benefits are provided for disability, death, and survivors of eligible members or beneficiaries. It is a defined benefit plan requiring that both the member and the employer contribute. Designed as a mandatory system for eligible state employees, the legislation provided for political subdivisions to participate by contractual agreement with PERSI. The benefits and obligations to contribute to the plan were established and may be amended by the Idaho State Legislature. Financial reports for the plan are available from PERSI upon request.

After five years of credited service, members become fully vested in retirement benefits earned to date. Members are eligible for retirement benefits upon attainment of the ages specified for their employment classification. For each year of credited service, the annual service retirement allowance is 1.917% or 2.225% (depending upon employee classification) of the average monthly salary for the highest consecutive 42 months.

For the years ended June 30, 2005 and 2004, the required contribution rate as determined by PERSI was 9.77% and 5.86% of covered payroll for the University and employees, respectively. The University’s contributions required and paid were \$5,244,318 and \$4,984,862, for the years ended June 30, 2005 and 2004, respectively.

Optional Retirement Plan—Effective July 1, 1990, the Idaho State Legislature authorized the Board of Regents to establish an Optional Retirement Plan (“ORP”), a defined contribution plan, for faculty and exempt employees. The employee contribution requirement for the ORP is based on a percentage of total payroll. Employer contributions are determined by the State of Idaho.

New faculty and exempt employees hired July 1, 1990 or thereafter automatically enroll in the ORP and select their vendor option. Faculty and exempt employees hired before July 1, 1990 had a one-time opportunity to enroll in the ORP. Enrollees in the ORP no longer belong to PERSI. Vendor options include Teachers Insurance and Annuity Association - College Retirement Equities Fund and Variable Annuity Life Insurance Company.

Participants are immediately fully vested in the ORP. Retirement benefits are available either as a lump sum or any portion thereof upon attaining 62 years of age. The contribution requirement (and amount paid) for the years ended June 30, 2005 and 2004 were \$8,886,361 and \$8,698,483, respectively, that consisted of \$4,670,037 from the University and \$4,216,324 from employees for 2005 and \$4,571,295 from the University and \$4,127,188 from employees for 2004.

Although enrollees in the ORP no longer belong to PERSI, the University is required to contribute to PERSI 3.03% of the annual covered payroll. These annual supplemental payments are required through July 1, 2015. During the years ended June 30, 2005 and 2004, the supplemental funding payments made to PERSI were \$1,831,227 and \$1,784,474. This amount is not included in the regular University PERSI contribution discussed previously.

Early Retirement Program—During fiscal year 2002, the University offered the Voluntary Separation and Retirement Opportunities Program (“VSROP”). The purpose of VSROP was to afford eligible faculty and staff members who desired to leave or retire from the University an opportunity to do so with additional economic incentives. This was a one-time program and is not expected to become an on-going feature of University benefits. The University accepted enrollment in VSROP from February 1, 2002 to April 2, 2002 only. Included in accrued salaries and benefits payable at June 30, 2005 and 2004 is \$146,923 (undiscounted) and \$2,802,758 (undiscounted), respectively, associated with this program.

Postretirement Benefits Other Than Pensions—In addition to the pension benefits described above, the University provides at its expense post-retirement medical, dental and life insurance coverage for life to employees who meet certain age and service requirements. In general, the employee must have completed at least 30 years of credited service or the sum of his/her age and years of credited service must total at least 80 to qualify for this benefit. This benefit has not been offered to employees hired on or after January 1, 2002. Employees who do not qualify for this benefit but who do qualify for retirement under PERSI or ORP are eligible to use 50% of the value of their unused sick leave to pay for their medical insurance coverage through the University.

The University partially funds these obligations by depositing a percentage of employee gross payrolls into a designated university budget. This percentage was 1.5% at June 30, 2005 and June 30, 2004. The University had expenses totaling \$2,975,588 in fiscal 2005 to purchase insurance for 707 retired employees and expenses totaling \$2,941,547 in fiscal 2004 to purchase insurance for 712 retired employees receiving these benefits. As of June 30, 2004, approximately \$4,288,113 is available to fund these obligations, in Fiscal 2004 the amount available was \$2,670,534.

The GASB has issued Statement No. 45 that will require the University to record these obligations on an actuarially determined basis. An actuarially determined valuation of this obligation will likely be significantly higher than the amount currently accrued. During fiscal year 2005 the President appointed a task force of faculty, staff, and retirees to recommend changes to the post retirement benefit plan.

14. NATURAL CLASSIFICATIONS WITH FUNCTIONAL CLASSIFICATION

For fiscal years prior to 2003, the University reported expenses in functional categories. In order to be consistent with the State of Idaho's reporting method, operating expenses are displayed in their natural classifications for fiscal year 2005 and 2004. The following table shows natural classifications with functional classifications:

Expenses 2005										
	Salaries	Benefits	Services	Supplies	Ins, Utilities, Rent	Sch. & Fellow	Depreciation	Other	Totals	
Instruction	\$ 43,376,295	\$ 13,724,897	\$ 9,619,108	\$ 4,134,395	\$ 848,819	\$ 4,484,621	\$ -	\$ 1,102,996	\$ 77,291,131

	\$ 134,723,758	\$ 45,407,100	\$ 32,421,892	\$ 30,092,895	\$ 7,807,871	\$ 15,522,974	\$ 17,291,610	\$ 3,516,883	\$ 286,784,983	

15. CONTINGENCIES AND LEGAL MATTERS

Revenue from federal research and service grants includes amounts for the recovery of overhead and other costs allocated to these projects. The University may be required to make refunds of amounts received for overhead and other costs reimbursed as a result of audits by agencies of the federal government. University officials are of the opinion that the effect of these refunds, if any, will not have a significant effect on the financial position of the University.

The University is a defendant in litigation arising from the normal course of operations. Based on present knowledge, the University's administration believes any ultimate liability in these matters will not materially affect the financial position of the University.

Litigation

The University of Idaho is party to two lawsuits related to the University Place project in Boise, Idaho.

In May 2005, the Foundation initiated a legal malpractice action against two law firms and several individual lawyers in those firms. Thereafter, the University joined in the litigation with respect to one of the law firms and individual attorneys in that firm. Both firms have filed counterclaims and cross-claims against the University. Specific damage amounts are not alleged; however, the Foundation's initial claims seek in excess of \$25 million.

In March 2004, the Foundation filed a claim with an insurance company for losses sustained as a result of errors and omissions of individuals in regard to the University Place project. The University of Idaho subsequently filed a similar claim with the insurance carrier. Both the University and the Foundation are named insureds under this policy, which provides first party coverage for the failure of state employees and volunteers to perform their duties faithfully. A joint proof of loss was submitted to the carrier in November, 2004 seeking to recover \$10 million. The insurance company denied coverage in April, 2005. In June, 2005, the Foundation and the University jointly filed a lawsuit in state court seeking a determination of coverage under the policy.

The litigation against the law firms, the insurance company and separate litigation filed by the Foundation against the original developer of the University Place project has been consolidated. A trial is scheduled to commence in January 2007 in the consolidated case.

No specific damage amounts have been alleged in the claims that give rise to the contingent liability on counterclaims, therefore the estimated amount or range of loss is indeterminable.

16. RECLASSIFICATION OF NET ASSETS AND SCHOLARSHIP ALLOWANCE

During a review of net asset classifications, it was determined that unspent bond proceeds were previously classified as capital assets and should have been classified as restricted – expendable assets. This requires a reclassification of previously stated net assets. The effect of the reclassification is to decrease invested in capital assets – net of related debt and increase restricted – expendable net assets by equal amounts. There is no impact on the change in net assets of previous years.

The University has corrected the classification of amounts between invested in capital assets – net of related debt and restricted – expendable net assets as of June 30, 2004 as follows:

	Invested in capital assets - net of related debt	Restricted - Nonexpendable	Restricted - Expendable	Unrestricted	Total
Net assets, June 30, 2004 as previously classified	\$ 179,046,309	\$ 71,171,461	\$ 15,388,436	\$ 29,918,062	\$ 295,524,268
Reclassification	<u>(5,242,612)</u>	<u>-</u>	<u>5,242,612</u>	<u>-</u>	<u>-</u>
Net assets, June 30, 2004 as reclassified	<u>\$ 173,803,697</u>	<u>\$ 71,171,461</u>	<u>\$ 20,631,048</u>	<u>\$ 29,918,062</u>	<u>\$ 295,524,268</u>

During a review of revenue and expense classifications, it was determined that there was a misclassification in the scholarship allowance calculation in the year ended June 30, 2004. This requires a reclassification of previously classified operating revenues and expenses. The effect of the reclassification is to increase student tuition and fee revenue, increase benefits expense and increase scholarships expense. There is no impact on the change in net assets of previous years.

The University has corrected the amounts of the operating revenue and expense balances as of June 30, 2004 as follows:

	Student Tuition & Fee Revenue	Benefits Expense	Scholarship Expense
June 30, 2004 previously classified	\$ 35,126,457	\$ 42,355,153	\$ 9,466,680
Reclassification	<u>9,108,241</u>	<u>3,051,947</u>	<u>6,056,294</u>
June 30, 2004 reclassified	<u>\$ 44,234,698</u>	<u>\$ 45,407,100</u>	<u>\$ 15,522,974</u>

17. COMPONENT UNIT

The University of Idaho Foundation, Inc. (Foundation) is a legally separate, 501(c)(3) component unit of the University of Idaho (University). The Foundation was established in 1970 for the purpose of soliciting donations and to hold and manage invested donations for the benefit of the University. The Foundation is made up of over 150 volunteers who are governed by a 25 member Board of Directors elected annually by the Foundation members. The Foundation is supported by professional staff of the University in the Foundation Office, Trust & Investment Office, the Development Office, and throughout the colleges. Separate audited financial statements are prepared for the Foundation and may be obtained by contacting University of Idaho Foundation, PO Box 443143, Moscow, Idaho 83844-3143.

The majority of the resources, or income earned from those resources, that the Foundation holds and invests are restricted by donors to the activities of the University. Because these restricted resources held by the Foundation can only be used by, or for the benefit of, the University and because these resources provide a significant amount of support to the University, the Foundation has been determined

to be a component unit of the University and is discretely presented in the University's financial statements. Significant accounting policies associated with the University, described in Note 1, apply to the Foundation, when applicable. Significant disclosures at June 30, 2005 and 2004 are as follows:

University Place In Boise

Over the past several years the Foundation has assisted the University in developing the University Place project in Boise, Idaho. The Foundation's involvement was at the request of the University administration to help them in their goal of consolidating the programs offered by the University in the Treasure Valley. During fiscal year 2004, approximately \$6.1 million of predevelopment costs associated with the Health Professions Center were written off. The Foundation has been focused the past two years on maximizing the recovery of some of the predevelopment cost and repayment of related debt. During fiscal year 2005 and 2004 the Foundation received \$1.8 million and \$4.9 million, respectively, in construction savings reimbursements from the Idaho State Building Authority and funds from the garage equalization fund.

Investments

Investments in marketable securities are recorded at fair value as determined by quoted market prices. At June 30, 2005, the fair value of restricted and unrestricted investments was \$171,347,476 and \$3,716,009 respectively. At June 30, 2004, the fair value of restricted and unrestricted investments was \$156,501,865 and \$6,671,470 respectively.

The majority of investments held by the Foundation are part of the pooled endowment fund referred to as the Consolidated Investment Trust (C.I.T.) The C.I.T. was established by the Regents of the University of Idaho in 1959 to pool endowment funds received by the University and the Foundation. The C.I.T. utilizes the market value share method of accounting. The fair value of the C.I.T.'s portfolio is divided by the number of outstanding unit participation shares owned by the individual endowments to determine the value of a share when additional contributions are added.

The following table represents the fair value of investments by type at June 30, 2005:

Investment Type	Fair Value
U.S. Government Treasury and Agency Obligations	\$25,419,753
Corporate Debt and Preferred Stock	46,103,191
Common Stock	102,228,872
Mutual Funds	1,311,669
	<u>\$ 175,063,485</u>

Interest Rate Risk

Interest rate risk is defined by GASB Statement No. 40 as the risk a government agency may face should Interest rate fluctuations affect the fair value of investments. The Foundation does not presently have a formal policy that addresses interest rate risk. As of June 30, 2005, the Foundation had the following investments subject to interest rate risk:

Investment Type	Fair Value	Investment Maturities (In Years)			
		Less than 1	1-5	6-10	More than 10
U.S. Corporations	\$ 20,900,368	\$ 444,492	\$ 3,827,226	\$ 4,154,506	\$ 12,474,144
U.S. Gov. Agency Obligations	22,666,501	1,312,031	134,059	2,015,733	19,204,678
U.S. Treasuries	2,753,252	176,552	1,127,618	348,248	1,100,834
Other Corporate Debt	175,930	-	-	24,500	151,430
	<u>\$ 46,496,051</u>	<u>\$ 1,933,075</u>	<u>\$ 5,088,903</u>	<u>\$ 6,542,987</u>	<u>\$ 32,931,086</u>

Credit Risk

Credit risk exists when there is a possibility the issuer or other counterparty to an investment may be unable to fulfill its obligations. GASB 40 requires disclosure of credit quality ratings for investments in debt securities. The Foundation does not presently have a formal policy that addresses credit risk. (The credit risk ratings listed below are issued upon standards set by Standard and Poor's.) As of June 30, 2005, the Foundation had the following investment credit risk:

Credit Rating	Fair Value
AAA	\$ 30,618,821
AA	1,629,395
A	6,407,024

Concentration of Credit Risk

Per GASB Statement No. 40, Concentration of Credit Risk is defined as the risk of loss attributed to the magnitude of a government's investment in a single issuer. The Foundation has a formal policy addressing concentration of credit risk. Investments shall be diversified with the intent to minimize the risk of large realized and unrealized losses to the invested assets. The total portfolio will be constructed and maintained to provide prudent diversification with regard to the concentration of holding in individual issues, corporations, or industries.

Not more than 5% of the total equity portfolio valued at market may be invested in the common stock of any one corporation.

Not more than 5% of the total outstanding shares of any one company may be held.

Not more than 20% of the equity portfolio valued at market may be held in any one industry category.

Not more than 15% of the equity portfolio valued at market may be invested in securities issued as American Depository Receipts.

Fixed income securities of any one issuer shall not exceed 5% of the market value of the total bond portfolio at the time of the purchase (except US Treasury or other federal agencies).

Holdings of any individual fixed income issue must not exceed 5% of the value of the total issue (except US Treasury or other federal agency issues.)

Issuer	Fair Value	% of Total Investments
Common Fund Multi-Strategy Bond Fund	\$ 10,615,298	6.06%
Various (no single issuer exceeds 5% of total)	164,448,187	93.94%
Total	\$ 175,063,485	100.00%

Distributions To University Of Idaho And Affiliates

During fiscal years 2005 and 2004, earnings from endowments held in the C.I.T., direct gifts and other revenues to the Foundation were distributed as follows:

	2005		2004	
	C.I.T. Endowment Income	Gifts and Other Revenues	C.I.T. Endowment Income	Gifts and Other Revenues

NOTES PAYABLE--Notes payable at June 30 consisted of the following:

	2005	2,004
Unsecured note payable to the University of Idaho, a related party, dated October 14, 2003, due December 31, 2005. Variable rate interest due at maturity at Wells Fargo daily sweep rate plus 2% (3.98% as of June 30, 2005). Proceeds were used to finance University Place in Boise.	\$ 5,041,759	\$ 5,041,759
Unsecured note payable to a third party, dated January 17, 2003, due January 17, 2006. Fixed rate interest due quarterly at 3.85%. Proceeds were used to refinance another note, which was originally used to finance University Place in Boise.	0	6,000,000
Variable rate demand revenue notes, Series 2000, University of Idaho College of Business Project. Dated November 22, 2000, due January 1, 2007, secured by pledges to the building campaign. Variable rate interest due monthly (2.33% as of June 30, 2005). Proceeds were used to finance J.A. Albertson Building at UI Campus. Original note amount was \$9,205,000.	3,400,000	3,900,000
Unsecured note payable to the University of Idaho, a related party, dated October 14, 2003, due December 31, 2005. Fixed rate interest due at maturity at 1%. Proceeds were used to finance University Place in Boise.	<u>2,030,198</u>	<u>2,030,198</u>
	<u><u>\$ 10,471,957</u></u>	<u><u>\$ 16,971,957</u></u>

Activity for the year ended June 30, 2005 is as follows:

	Balance July 1, 2004	Additions	Reductions	Balance June 30, 2005	Due Within One Year
Notes payable	\$ 16,971,957	\$ -	\$ (6,500,000)	\$ 10,471,957	\$ 7,071,957

Activity for the year ended June 30, 2004 is as follows:

	Balance July 1, 2003	Additions	Reductions	Balance June 30, 2004	Due Within One Year
Notes payable	\$ 18,962,823	\$ -	\$ (1,990,866)	\$ 16,971,957	\$ 5,041,759

Principal and interest payment on notes payable are due as follows for the year ended June 30, 2005:

	Interest	Principal
2006	\$ 152,393	\$ 7,071,957
2007	<u>39,610</u>	<u>3,400,000</u>
Total	<u>\$ 192,003</u>	<u>\$ 10,471,957</u>

The Foundation's debt obligations exceed its unrestricted assets. Plans to manage current debt are as follows. The debt associated with the construction of the University of Idaho College of Business project is secured by pledges to the building campaign. The obligation on the note exceeds the pledges. The note is paid down annually based upon the pledges collected during the period.

No funding source has been identified for the repayment of the \$5,041,759 and \$2,030,198 notes payable to the University due December 31, 2005. The Foundation is pursuing all avenues of recovery and settlement of this note.

18. RELATED ORGANIZATIONS

The Idaho Research Foundation, Inc. (the "Research Foundation") is a separate legal entity that provides technology transfer services to the University. On January 17, 2002, the University executed a revolving line-of-credit agreement with the Research Foundation not to exceed \$200,000. As of June 30, 2005 and 2004, the Research Foundation has drawn \$126,000 on the line-of-credit. Interest of 5% is due annually on the outstanding balance. The note had an original due date of June 30, 2005 but has been extended without the ability to take further draws. Payment of all outstanding interest and principal is due June 30, 2006. The Research Foundation is a legally separate organization which provides a valuable service to the University. It does not provide financial resources to the University and is not reported as a component unit.

The Vandal Boosters, Inc. (the "Boosters") is a fund raising organization that provides financial assistance and services to the University intercollegiate athletic department. Contributions received by the University from this organization are recorded as gifts. Unaudited net assets of the Boosters at June 30, 2005 and 2004 were \$321,439 and \$213,598, respectively. Assets owned by the Boosters are not included in the accompanying financial statements.

The University of Idaho Alumni Association (the "Association") was established to develop and maintain a positive relationship with alumni, parents, and friends of the University. The Association is a legally separate organization which provides a valuable service to the University. It does not provide significant financial resources to the University and is not reported as a component unit.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING
STANDARDS***

Idaho State Board of Education
University of Idaho
Moscow, Idaho

We have audited the financial statements of University of Idaho (University) as of and for the year ended June 30, 2005, and have issued our report thereon dated September 30, 2005. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal control over financial reporting

In planning and performing our audit, we considered the University's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

Compliance and other matters

As part of obtaining reasonable assurance about whether the University's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain additional matters that we reported to management of the University in a separate letter dated September 30, 2005.

This report is intended solely for the information and use of the Idaho State Board of Education, management, federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.
